

Hermitage Medical Clinic hosts fundraising Charity Ball in aid of St Francis Hospice on the 24th November in the KClub .

Over 200 members of staff, consultants, suppliers and supporters of the Hermitage Medical Clinic attended a Charity Ball in the KClub . This high profile event was organised by the Hermitage Clinic in support of St Francis Hospice, Blanchardstown

Eamonn Fitzgerald, CEO of the Hermitage Medical Clinic commented “We are delighted to host this event as it marks the Clinic’s contribution to the message of cancer awareness. We are also delighted to be able to help St Francis Hospice in a very practical way by helping to raise funds for their new hospice in Blanchardstown”

Hermitage Medical Clinic provides a full range of medical and surgical care across a broad spectrum of specialities, to include a radiotherapy unit with two linear accelerators for radiation oncology. In the Spring of 2013 a Cyberknife Centre will open at Hermitage Medical Clinic. Cyberknife, a high tech form of radiosurgery treatment will be used to treat certain types of brain tumours and other cancers also.

Ethel McKenna, Chief Executive of St Francis Hospice said “We are delighted that the Hermitage Medical Clinic is supporting St. Francis Hospice Blanchardstown as their chosen charity this year. The new Hospice in Blanchardstown will provide the full range of specialist palliative care services for patients and families in the Dublin West area. The multidisciplinary Community Palliative Care Team is already based in the Hospice in Blanchardstown and providing services to patients in their own home

The support of the Staff and Consultants of Hermitage Medical Clinic is much appreciated and the Charity Ball in the K Club was a most enjoyable evening and our sincere thanks go to the organizers from the Hermitage.”
