## EMERGENCY DEPARTMENT

Our Emergency Department is an immediate access clinic run by Consultants.

We can provide you with:

- Immediate access to a Consultant's opinion
- Same day investigations
- Immediate management plan
- Prompt discharge letter

Cardiology, General Surgery, Medical, Orthopaedic and

Urology patients can be seen at the Emergency Department.

The Emergency Department offers a dedicated GP phone-line which will be manned by an Emergency Nurse to facilitate direct referrals and discussion of individual cases.

### How much will it cost?

All patients presenting to the Emergency Department will be charged €120 regardless of their insurance cover. Additional tests such as bloods and x-rays will be extra (for individual rates please consult our

*Emergency Department administrator at 01 – 645 9016).*

Should a patient be admitted, then the Health Insurer may cover all costs EXCEPT the initial €120 consultation fee.

We will also endeavour to communicate the outcome of each patient's visit to the referring GP the following day. This can be done by phone, fax or email and the department will work with each GP to tailor this response to accommodate the need of their individual practices.
