

# CORONAVIRUS PRECAUTIONARY ACTION

## RESTRICTED VISITING IN OPERATION

Hermitage Medical Clinic provides complex medical services to Patients who may be very vulnerable to infection and specifically the threat of Coronavirus

As a precautionary measure and in the interest of the safety of our Patients and Staff we are requesting that the public do not visit patients in Hermitage Clinic at this time.

**For enquiries about Visiting Criteria, in exceptional circumstances, please call our Main Reception: Hermitage Medical Clinic at 01 - 6459000**

We would encourage family and friends to contact inpatients, by mobile phone or video calling apps (such as Face Time, What's App video calling, etc.) until these visiting restrictions are lifted.

The hospital is providing additional support to our Patients at this time should they require any basic requirements such as newspapers/toiletries/foodstuffs/phone credit.

We appreciate that family contact is important to our patients particularly at critical points in time of care and the hospital will, of course, facilitate visiting arrangements in such exceptional circumstances but only by prior arrangement directly with the Ward or Unit staff.
